Choose your size based on your bust measurement. If your hip measurements are wider than those in the size chart, check the hip measurements in the chart below to see if there's enough room or whether the pattern needs to be altered. It's easy to do. Simply trace the line of the one size instead of the other.

pattern measurements (in inches)

— shorten or lengthen the pattern here

This chart's measurements are the pattern measurements based on the fabric type and serve as a reference. Ease has been added to the width measurements (in addition to the exact body measurements) for a more comfortable fit. Luz is designed to have a comfortable cut. Depending on the preferred cut, you could decide to go a size smaller or larger than the recommended size.

Compare the stated lengths to the measured or desired lengths. **Lengthen** or **shorten** the cardigan and/or sleeves by cutting the pattern pieces at the indicated double lines. Then either increase the distance between the cut pieces by the desired amount (to lengthen), or overlap the pieces (to shorten). Make sure that the CF and CB lines and the side seams are always straight.

IMPORTANT

Adjust the amount of fabric to be used based on these alterations.

fabric advice

Pick the jacquard or other knit fabric of your dreams and make this fabulous cardigan. Would you like to wear Luz more like a coat? It is possible! Select a woven fabric with body. If it has a small amount of stretch, even better.

sewing instructions

The sewing instructions explain how to make the cardigan if you don't have an overlock machine. Use a stretch stitch setting on your sewing machine to sew the seams and an overlock stitch to finish the raw edges. The seams of the cardigan can also be finished with just a 4-thread overlocker, i.e. 2 upper looper threads and 2 lower looper threads. This finishes the raw edges and sews the seams together at the same time. The seams will remain elastic.

Leave the needle in the fabric again, raise the presser foot, and snip again into the seam allowance of the front only until just before the needle. Turn the garment and lower the presser foot back down. Continue sewing.

Finish the shoulder seams with overlock stitching.

3

Fold the facing towards the wrong side so that the neckline of the facing and of the back are even. Sew into place between the marking threads.

Finish the raw edges of the neckline with overlock stitching.

4

Pin and sew the top of the sleeve (4)(= the sleeve cap) to the armhole with the markings matching. The single notch marks the front, while the double notch marks the back. The top notch should align with the shoulder seam.
